

Persuasive Writing: Image Search

As we learned about in class (think about the advertisement for Nike!), people can persuade you with words, but ALSO images!

Using the databases that you learned about today, please search for at least 3 images that would help make your persuasive argument stronger. First, explain what your persuasive argument is. Then, when you have found your four images:

- cut and paste them into this document
- cite the image (you can cut and paste this, too!)
- explain HOW your image can help you make your persuasive argument

Persuasive Argument: The government should increase taxes on gasoline and use the revenue to fund public transport.

Explanation:

This image will help me to persuade my audience of the need for supporting public transportation, as you can see that there are many cars crowded together and a polluted skyline.
